FIRST THINGS

FIRST LOG CABINS:

The FIRST LOG CABIN on Mahaska soil was built by permission of the Indians on the flat north of Eddyville in the fall of 1842 by William McIlvain, a hunter and trapper of that period. It was occupied by John B. Gray who had come with his family from Texas on November first of that year. Mrs. McIlvain and Mrs. Gray were sisters.

On the morning of May first 1843 the land was thrown open for settlement. Poultney Loughridge took up his claim in Spring Creek Township E $\frac{1}{2}$ of the SE $\frac{1}{4}$ Sec 15 Twp 75 Range 15- and built the FIRST CABIN on the "New Purchase."

The FIRST CABIN built on what later became Oskaloosa town site was erected by William D. Canfield in the spring of 1848. It was located on what is called Central Addition in 1935-lying south of High Avenue West. The cabin stood near Lots 14-15-16.

FIRST FRAME HOUSE:

The FIRST FRAME HOUSE was built by Micajah T. Williams in 1845. He did the work himself. The house was located on Lot 5-Block OP where the Post Office stood in 1935.

FIRST BRICK HOUSE:

The FIRST BRICK HOUSE was built by Baxter B. Berry in November 1846 from brick taken from a kiln operated in Spring Creek Township by Goodwin and Harbour. The house was located on Lot 1-Block 13 OP-north of the Christian Church site in 1935.

FIRST TAVERN:

The FIRST TAVERN was built on Lot 5 Block 19 Oskaloosa town site. The lot was bought June ninth 1844 by Harmon Davis for \$ 41.00 and was sold to Charles Purvine who built and opened the FIRST TAVERN. There was a boarding house kept for a short time by William D. Canfield in a cabin on Lot 5 Block 20 OP-but the first real Tavern was built and operated by Purvine.

FIRST THINGS

It was a story and half building with four rooms on the first floor and one big room upstairs with six beds in it. The Tavern changed hands and names frequently in the first few years. It was the Madison House in 1856 when Major F.L.Downing purchased it. It consisted then of seven different frame buildings grouped together with a sign-post out in front far enough from the door to allow stage-coaches to drive between it and the door. The name Downing has been carried ever since its first use. The site has never been used for anything but hotel purposes.

FIRST COURT HOUSE:

The FIRST COURT HOUSE was built in 1845. It was a frame structure, two stories high, and stood on the north-west corner of the square. James Edgar was the contractor.

FIRST DISTRICT COURT:

The FIRST DISTRICT COURT was held July 17-1844 Judge Honorable Joseph Williams of Muscatine presiding. The session was held in an unfinished log cabin owned by William D.Canfield. The jury sat in a hollow in the tall prairie grass about one mile north of the square. Four criminal, eight civil, and one jury case were tried. The seal adopted temporarily was the eagle side of a 25 cent silver piece of American coin.

The FIRST GRIST MILL was located on Skunk River at the site of the Oskaloosa Water Works plant in 1935. It was owned and operated by George Duncan who built it and operated it in 1844. The machinery was brought from Burlington by Samuel Coffin with a six-yoke team of oxen.

The FIRST SAW MILL was built on South Skunk River at a point about four miles down the river from the Duncan mill. The location was in Adams Township-NE 1/4 of the SW 1/4 Sec.33-Twp 76 Range 15. It was operated by Captain W.H.Comstock and William Pilgrim. The construction was almost entirely of native lumber-gearing wheels and all being chisled out of the most suitable timbers from the nearby forests. It was completed as a sawmill in 1844, and for a time operated day and night to supply the demand for building material for the new settlement. A little later attachments were made for grinding corn and wheat flour. In these early years the Duncan and Glendale mills had customers from as far away as Fort Des Moines and vicinity. Records show that the customers registered their grist and waited sometimes as long as eight days for their turn at grinding.

FIRST BLACKSMITH SHOP:

The FIRST BLACKSMITH SHOP was opened by A.S.Nichols on his claim in Harrison Township in the spring of 1843. In September of that year he moved to East 1/2 of the SE 1/4 Sec 14 Township 75 R 16 which was just west of the town of Oskaloosa and opened a shop which he continued to run until 1856.

The acre of ground was donated by Judge John White who lived near. It was known as the John White Cemetery. The ground proved too wet and in 1848 the ladies of the community formed a sewing society and by sale of garments raised a fund to buy five acres of ground in Sec.12 from John White, the banker. This is known as OLD CEMETERY in 1935 and adjoins William Penn College on the north.

It was located on Lot 1-Block 28-OP. It faced the square where there was a great log elevated on two posts with wooden pegs driven into it in a convenient way for hitching horses.

The grocery store was owned by Jones Brothers and Crossman. It stood on Lot 6-Block 20-OP. It was a log-cabin and had a sign fastened to a weight-pole on top stating the business as a grocery. Perry L.Crossman handled the United States mail here.

FIRST WELL:

The FIRST WELL dug in the county was put down by Poultney Loughridge on his claim in Spring Creek Township- (see FIRST LOG CABIN) When the surveyors came along later it was found to be on his neighbor's claim across the road-NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec 15.

FIRST LUMBER YARD:

The FIRST LUMBER YARD was opened June 13-1865 by Isaac Kalbach. He bought his first lumber from just where it lay in the river at Keokuk. He had to draw it to the bank for drying before shipping it to Edlyville. From that point it was hauled by wagon to Oskaloosa. The yard was located on Lot 6 Block 28 and Lots 3 and 4 Block 35 OP. This is the site of the City Hall in 1935. The yard is still owned and operated by the Kalbach family in 1935.

FIRST POST OFFICE:

The FIRST POST OFFICE was located in Jones Brothers and Crossman's grocery. The store stood on Lot 6 Block 20 OP-the site of the Eagles' Lodge Home in 1935. Perry L. Crossman was placed in charge of the U.S. mail on June 19-1844. It was known to the Postoffice Department at Washington D.C. as Mahaska-Iowa. On October ninth of the same year the official name was changed to Oskaloosa.

The sessions were held in the Cumberland Presbyterian Church with ten students enrolled for the thirty day period. When the State Legislature became interested in Normal Institute Law these three men named above were called before the assembly to explain their method of teaching-and the Iowa Normal Institute Law then enacted was based on this FIRST NORMAL INSTITUTE.

FIRST COAL MINES:

The first extensive mining operations commenced in 1873 by the organization of the Central Iowa Coal Co. of which H.W.McNeil was President . They gradually absorbed other companies and carried on a large business,shipping annually about 250000 tons of coal. In the fall of 1880 the Chicago and Northwestern R.R.Co. bought out the company which was then owned almost exclusively by H.W. and W.A.McNeil-brothers-and J.K.Graves of Dubuque. The purchase price was \$ 500000. The principal mine was located at Muchakinock in East Des Moines Township-just south of Oskaloosa. The labor was mostly colored,having been brought in from Virginia in 1881. A town sprung up around the mines and was called Muchakinock from the name of a small creek running through the property. The road from the town to Oskaloosa is still called in 1935 " Muchakinock Road" although there is not a trace of such a town and only a few scattered piles of slack to show such a mine ever existed.

FIRST STAGE COACH LINE:

For several years after settlement the county had no regular stage or conveyance of any kind. A hack line ran to Fairfield. Then Fink and Walker ran a stage twice a week to points nearer the river. Then came the Western Stage Co. The time between Oskaloosa and the river was from one to two days. There was a line of stages running up the river from Keokuk to Des Moines through Oskaloosa. Another line left Washington and crossed the north and south line at Oskaloosa, going on to Knoxville and the west. Oskaloosa became quite an important station on the routes. The stage buildings of The Western Stage Co. stood where the Y.M.C.A. building stood in 1935.

FIRST FERRY:

In 1845 John Scott was granted a license to keep a FERRY across the Des Moines river at the mouth of the Raccoon river near Ft. Des Moines. Scott paid \$10.00 license fee. This point is where the city of Des Moines now stands. In 1934 Abigail Adams Chapter D A R dedicated and presented to the city of Des Moines a granite memorial marking the spot where the ferry operated.

This later was changed to Keokuk and Des Moines-which name it retained until it became a part of the Chicago, Rock Island, and Pacific R R in 1878.

Introduction

1. The purpose of this study is to investigate the effects of various factors on the growth of a certain plant species.

1.1 Objectives of the Study

The primary objective of this study is to determine the optimal conditions for the growth of the plant species under investigation. This involves examining the effects of different levels of light, temperature, and nutrient availability on the plant's growth rate and overall health. Secondary objectives include identifying the most effective fertilization methods and the impact of various environmental stressors on the plant's development.

1.2 Scope of the Study

The study is limited to the growth of the plant species in a controlled laboratory environment. The experimental design includes a series of treatments that vary the levels of light, temperature, and nutrient availability. The growth rate is measured by the increase in plant height and the number of leaves produced over a period of six weeks. The overall health of the plants is assessed by the number of leaves that are damaged or lost due to environmental stressors. The results of the study will be used to develop a model for the optimal growth conditions for the plant species.

1.3 Significance of the Study

The study is significant because it provides a comprehensive overview of the factors that influence the growth of the plant species. The results of the study will be used to develop a model for the optimal growth conditions for the plant species, which can be used to guide the cultivation of the plant in a variety of environments. The study also provides a basis for further research on the growth of the plant species under different conditions.

Introduction

The purpose of this study is to investigate the effects of various factors on the growth of a certain plant species. The study was conducted over a period of six months, during which time the plants were grown under different conditions. The results of the study are presented in the following sections.

Materials and Methods

The plants were grown in a controlled environment, with temperature and humidity maintained at constant levels. The plants were divided into three groups, each receiving a different treatment. The first group received no treatment, the second group received a low dose of a certain substance, and the third group received a high dose. The growth of the plants was measured at regular intervals, and the results were compared between the different groups.

Results

The results of the study show that the growth of the plants was significantly affected by the treatment. The plants in the high dose group grew much faster than those in the low dose group, and both groups grew faster than the control group.

... a resident of
Oskaloosa, one Mary Ellen White,
is a daughter of a veteran of the
War of 1812. Miss White, who is
my great-aunt, is 84 years old. She

was born on the farm on which I re-
side, on October 14, 1865.

Her father (my great grandfather)
was William White, and he obtained
this tract of land from the govern-
ment on July 4, 1846, having come
here to Oskaloosa from Indiana the
previous fall. Incidentally, my three
children are the fifth generation to
call this farm "home."

War Department records show that
Mr. White was a corporal in Captain
Isaac Williams' company, Colonel
Samuel Bunch's regiment, of the east
Tennessee militia, in the War of
1812.—Ethel S. Johnston, Mahaska
County, Iowa.

Some Tennessee militia (was
Corporal White among them?) did
good work at New Orleans under
Jackson. Incidentally, the daugh-
ter of Corporal White—now bed-
fast and without funds of her own
—gets no federal pension. Ed-
tor.
